

Aspirin at Arrival for Acute Myocardial Infarction (AMI)

*This measure is to be reported **each time** a patient is discharged from the emergency department with a diagnosis of AMI during the reporting period.*

Measure description

Percentage of patients with an emergency department discharge diagnosis of AMI who had documentation of receiving aspirin within 24 hours before emergency department arrival or during emergency department stay

What will you need to report for each patient who has an emergency department discharge diagnosis of acute myocardial infarction (AMI) for this measure?

If you select this measure for reporting, you will report:

- Whether or not a patient received aspirin within 24 hours before emergency department arrival or during emergency department stay

What if this process or outcome of care is not appropriate for your patient?

There may be times when it is not appropriate for a patient to receive aspirin within 24 hours before emergency department arrival or during emergency department stay, due to:

- Medical reasons (eg, not indicated, contraindicated, other medical reason) OR
- Patient reasons (eg, patient declined, economic, social, religious, other patient reason) OR

In these cases, you will need to indicate which reason applies, specify the reason on the worksheet and in the medical chart. The office/billing staff will then report a code with a modifier that represents these valid reasons (also called exclusions).

Acute Myocardial Infarction

Aspirin at Arrival for Acute Myocardial Infarction (AMI)

PQRI Data Collection Sheet

Patient's Name	Practice Medical Record Number (MRN)	Birth Date (mm/dd/yyyy) / /	Gender <input type="checkbox"/> Male <input type="checkbox"/> Female
National Provider Identifier (NPI)		Date of Service	

Clinical Information

Billing Information

Step 1 Is patient eligible for this measure?			
	Yes	No	Code Required on Claim Form
Any patient regardless of age.	<input type="checkbox"/>	<input type="checkbox"/>	Verify date of birth on claim form.
Patient has emergency department (ED) discharge diagnosis of acute myocardial infarction.	<input type="checkbox"/>	<input type="checkbox"/>	Refer to coding specifications document for list of applicable codes.
There is a CPT E/M Service Code for this visit.	<input type="checkbox"/>	<input type="checkbox"/>	
If No is checked for any of the above, STOP. Do not report a CPT category II code.			
Step 2 Does patient meet or have an acceptable reason for not meeting the measure?			
Aspirin within 24 hours before ED Arrival or during ED stay	Yes	No	Code to be Reported on Line 24D of Paper Claim Form, if Yes (or Service Line 24 of Electronic Claim Form)
Received	<input type="checkbox"/>	<input type="checkbox"/>	4084F
Not received for one of the following reasons:			
• Medical (eg, not indicated, contraindicated, other medical reason)	<input type="checkbox"/>	<input type="checkbox"/>	4084F-1P
• Patient (eg, patient declined, economic, social, religious, other patient reason)	<input type="checkbox"/>	<input type="checkbox"/>	4084F-2P
Document reason here and in medical chart. _____ _____			If No is checked for all of the above, report 4084F-8P (Aspirin was not received within 24 hours before emergency department arrival or during emergency department stay, reason not otherwise specified.)

Aspirin at Arrival for Acute Myocardial Infarction (AMI)

Coding Specifications

Codes required to document patient has an emergency department discharge diagnosis of acute myocardial infarction and an emergency department visit occurred:

An ICD-9 diagnosis code for acute myocardial infarction and a CPT E/M service code are required to identify patients to be included in this measure.

Acute myocardial infarction ICD-9 diagnosis codes

- 410.01, 410.11, 410.21, 410.31, 410.41, 410.51, 410.61, 410.71, 410.81, 410.91 (Acute myocardial infarction)

AND

CPT E/M service codes

- 99281, 99282, 99283, 99284, 99285 (emergency department visit),
- 99291 (critical care, evaluation and management)

Quality codes for this measure (one of the following for every eligible patient):

CPT II Code descriptors

(Data Collection sheet should be used to determine appropriate combination of codes.)

- **CPT II 4084F:** Aspirin received within 24 hours before emergency department arrival or during emergency department stay
- **CPT II 4084F-1P:** Documentation of medical reason(s) for not receiving or taking aspirin within 24 hours before emergency department arrival or during emergency department stay
- **CPT II 4084F-2P:** Documentation of patient reason(s) for not receiving or taking aspirin within 24 hours before emergency department arrival or during emergency department stay
- **CPT II 4084F-8P:** Aspirin was not received within 24 hours before emergency department arrival or during emergency department stay, reason not otherwise specified
