

Characterization of Urinary Incontinence in Women Aged 65 Years and Older

*This measure is to be reported for all female patients aged 65 years and older with urinary incontinence — a minimum of **once** per reporting period.*

Measure description

Percentage of female patients aged 65 years and older with a diagnosis of urinary incontinence whose urinary incontinence was characterized at least once within 12 months

What will you need to report for each female patient aged 65 years and older with urinary incontinence for this measure?

If you select this measure for reporting, you will report:

- Whether or not you characterized the patient's urinary incontinence (eg, frequency, volume, timing, type of symptoms, how bothersome)

What if this process or outcome of care is not appropriate for your patient?

Some measures provide an opportunity for the physician or non-physician provider to document when a process or outcome of care is not appropriate for a given patient (also called performance exclusions). Because this measure is applicable to most if not all patients, there are no allowable performance exclusions.

PQRI Data Collection Sheet

| | | | |
|------------------------------------|--------------------------------------|-----------------------------|---------------------------------------------------------------|
| Patient's Name | Practice Medical Record Number (MRN) | Birth Date (mm/dd/yyyy) / / | <input type="checkbox"/> Male <input type="checkbox"/> Female |
| National Provider Identifier (NPI) | | Date of Service | |

| Clinical Information | | | Billing Information |
|-------------------------------------------------------------------------------------------|--------------------------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Step 1 Is patient eligible for this measure? | | | |
| | Yes | No | Code Required on Claim Form |
| Patient is aged 65 years and older. | <input type="checkbox"/> | <input type="checkbox"/> | Verify date of birth on claim form. |
| Patient is female. | <input type="checkbox"/> | <input type="checkbox"/> | Refer to gender on claim form. |
| There is a CPT E/M Service Code for this visit. | <input type="checkbox"/> | <input type="checkbox"/> | Refer to coding specifications document for list of applicable codes. |
| If No is checked for any of the above, STOP. Do not report a CPT category II code. | | | |
| Step 2 Does patient meet the measure? | | | |
| Urinary Incontinence | Yes | No | Code to be Reported on Line 24D of Paper Claim Form, if Yes (or Service Line 24 of Electronic Claim Form) |
| Characterized ¹ | <input type="checkbox"/> | <input type="checkbox"/> | 1091F |
| | | | If No is checked for the above, report 1091F-8P (Urinary incontinence was not characterized, reason not otherwise specified.) |

¹Characterization may include one or more of the following: frequency, volume, timing, type of symptoms, how bothersome

Characterization of Urinary Incontinence in Women Aged 65 Years and Older

Coding Specifications

Codes required to document patient has urinary incontinence and a visit occurred:

An ICD-9 diagnosis code for urinary incontinence and a CPT E/M service code are required to identify patients to be included in this measure.

Urinary incontinence ICD-9 diagnosis codes

- 307.6 (nonorganic origin),
- 625.6 (stress, female),
- 788.30, 788.31, 788.32, 788.33, 788.34, 788.35, 788.36, 788.37, 788.38, 788.39 (urinary incontinence)

AND

CPT E/M service codes

- 99201, 99202, 99203, 99204, 99205 (office — new patient),
- 99212, 99213, 99214, 99215 (office — established patient),
- 99241, 99242, 99243, 99244, 99245 (outpatient consult),
- 99387 (preventive medicine services — new patient),
- 99397 (preventive medicine services — established patient),
- 99401, 99402, 99403, 99404 (preventive medicine services — individual counseling)

Quality codes for this measure (one of the following for every eligible patient):

CPT II Code descriptors

(Data Collection sheet should be used to determine appropriate combination of codes.)

- **CPT II 1091F:** Urinary incontinence characterized (eg, frequency, volume, timing, type of symptoms, how bothersome)
- **CPT II 1091F-8P:** Urinary incontinence not characterized (eg, frequency, volume, timing, type of symptoms, how bothersome), reason not otherwise specified
