

## Three-dimensional Radiotherapy

### Coding Specifications

Codes required to document patient has prostate cancer without a secondary malignant neoplasm diagnosis of a specified site (respiratory, digestive, and of other specified sites) and is receiving external beam radiotherapy:

An ICD-9-CM diagnosis code for prostate cancer without an ICD-9 diagnosis code for a secondary malignant neoplasm and a CPT code are required to identify patients to be included in this measure.

All measure specific coding should be reported on the claim(s) representing the eligible encounter.

#### Prostate cancer ICD-9-CM diagnosis codes

- 185 (malignant neoplasm of prostate)

#### WITHOUT

#### ICD-9 diagnosis codes

- 197.0, 197.1, 197.2, 197.3, 197.4, 197.5, 197.6, 197.7, 197.8 (secondary malignant neoplasm of respiratory and digestive systems)
- 198.0, 198.1, 198.2, 198.3, 198.4, 198.5, 198.6, 198.7, 198.81, 198.82, 198.89 (secondary malignant neoplasm of other specified sites)

#### AND

#### CPT codes

- 77427

Quality codes for this measure:

#### CPT II Code descriptors

(Data collection sheet should be used to determine appropriate code or combination of codes.)

- **CPT II 4200F:** External beam radiotherapy to prostate only
- **CPT II 4201F:** External beam radiotherapy for prostate cancer to region(s) other than prostate only
- **CPT II 4165F:** Three-dimensional conformal radiotherapy (3D-CRT) or intensity modulated radiation therapy (IMRT) received
- **CPT II 4165F-8P:** Patients who did not receive three-dimensional conformal radiotherapy (3D-CRT) or intensity modulated radiation therapy (IMRT), reason not otherwise specified

Physician Performance Measures (Measures) and related data specifications, developed by the Physician Consortium for Performance Improvement® (the Consortium), are intended to facilitate quality improvement activities by physicians.

These Measures are intended to assist physicians in enhancing quality of care. Measures are designed for use by any physician who manages the care of a patient for a specific condition or for prevention. These performance Measures are not clinical guidelines and do not establish a standard of medical care. The Consortium has not tested its Measures for all potential applications. The Consortium encourages the testing and evaluation of its Measures.

Measures are subject to review and may be revised or rescinded at any time by the Consortium. The Measures may not be altered without the prior written approval of the Consortium. Measures developed by the Consortium, while copyrighted, can be reproduced and distributed, without modification, for noncommercial purposes, e.g., use by health care providers in connection with their practices. Commercial use is defined as the sale, license, or distribution of the Measures for commercial gain, or incorporation of the Measures into a product or service that is sold, licensed or distributed for commercial gain. Commercial uses of the Measures require a license agreement between the user and American Medical Association, on behalf of the Consortium. Neither the Consortium nor its members shall be responsible for any use of these Measures.

THE MEASURES ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND
