

Major Depressive Disorder (MDD)

Suicide Risk Assessment

PQRI Data Collection Sheet

Patient's Name	Practice Medical Record Number (MRN)	Birth Date (mm/dd/yyyy) / /	Gender <input type="checkbox"/> Male <input type="checkbox"/> Female
National Provider Identifier (NPI)		Date of Service	

Clinical Information

Billing Information

Step 1 Is patient eligible for this measure?			Code Required on Claim Form
	Yes	No	
Patient is aged 18 years and older on date of encounter.	<input type="checkbox"/>	<input type="checkbox"/>	Verify date of birth on claim form.
Patient has a line item diagnosis of new or recurrent episode of MDD.	<input type="checkbox"/>	<input type="checkbox"/>	Refer to coding specifications document for list of applicable codes. Codes determining a patient's eligibility must be reported on the same claim as the quality code(s) identified below.
There is a CPT Service Code for this visit.	<input type="checkbox"/>	<input type="checkbox"/>	
If No is checked for any of the above, STOP. Do not report a CPT category II code.			
Step 2 Does patient also have the other requirements for this measure?			Code to be Reported on Line 24D of Paper Claim Form (or Service Line 24 of Electronic Claim Form)
	Yes	No	
Does the patient meet the full criteria for MDD (ie, patient is not in remission ¹)?	<input type="checkbox"/>	<input type="checkbox"/>	If No (ie, patient is in remission), report only 3092F ² and STOP. If Yes , proceed to Step 3.
Step 3 Does patient meet the measure?			Code to be Reported on Line 24D of Paper Claim Form, if Yes (or Service Line 24 of Electronic Claim Form)
Suicide Risk	Yes	No	
Assessed	<input type="checkbox"/>	<input type="checkbox"/>	3085F
			If No is checked for the above, report 3085F-8P (Suicide risk not assessed, reason not otherwise specified.)

¹According to DSM-IV criteria, full remission requires no symptoms of depression over at least 2 months, and partial remission is the presence of depressive symptoms without meeting full MDD criteria, or no significant symptoms for a period of less than 2 months.

²If the patient has been assigned a line-item ICD-9-CM diagnosis code of either 296.20 or 296.30 (unspecified MDD) AND is in remission, code 3092F should be reported. This measure does not require suicide risk assessment to be reported for patients in remission, however all instances of 296.20 or 296.30 require that a CPT II code be reported. If the patient is in remission, report 3092F; if the patient is not in remission, then report a code to identify whether or not you assessed for suicide risk.
