

Browse-A-Code

Browse-A-Code is a tool built for those who are used to using code books, only this tool makes looking up codes much quicker. It allows you to “Browse” through a code set, going from section to section looking “up” and “down” the page to find what you are looking for.

So many CODES, so little time.... That is where Find-A-Code can assist you. I am astonished at the amount of codes used in the medical field. Using this tool has helped me quickly find the most accurate code and saved me time searching through the pages of a book. I am certain you will find this tool a huge time saver. I am going to take you through the steps of finding a specific code when you have no idea where to start. Of course the more specific keywords you use the better the result.

Suppose you have no idea what the word even means, **we have dictionaries** for that, **Dorlands** and **Stedmans** can define the word or term for you. (i.e. define fracture)

Browse-A-Code – Search your codes with a decision tree. A great tool to search with. For example, lets find an Elbow Brace, it is adjustable and needs fitted. This is all the information I have to go on, I do know it is a HCPCS code so I will chose “HCPCS”.

HCPCS

I know it is under the range of Orthotics, so I will select “ Orthotic Procedures”

HCPCS Code Set	
Code(s)	Description
A0021 - A0999	Transportation Services
A4206 - A8004	Medical And Surgical Supplies
A9150 - A9999	Administrative, Miscellaneous and Experimental
B4034 - B9999	Enteral And Parenteral Therapy
C1300 - C9899	Temporary Hospital Outpatient PPS
D0120 - D9999	Dental Procedures
E0100 - E8002	Durable Medical Equipment (DME)
G0008 - G9201	Temporary Procedures & Professional Services
H0001 - H2037	Rehabilitative Services
J0120 - J9042	Drugs Administered Other Than Oral Method
